President  
Pakistan Medical and Dental Council  
Islamabad

10<sup>th</sup> January 2010

UNDER GRADUATE TRAINING PROGRAMMES IN THE COUNTRY

Dear Prof Sibte Hassan:

I would like to take this opportunity to appreciate the efforts of the Pakistan Medical and Dental Council made in imparting its role for the quality under graduate medical education in the country and the tangible progress made by PMDC in post graduate training programmes and in building a greater partnership with international academic institutions. WHO is pleased to appreciate this role and would like to prepare a short and comprehensive brief about the scope of your academic work and reform being pursued in improving the quality of medical education in Pakistan. I will be grateful if the necessary material is shared to develop this brief. The material will be shared with the WHO Regional Office with the objectives to promote cooperation.

Thanking you and best regards,

17555  
20 JAN 2010

Yours sincerely,

Dr Khalif ~~Bile~~ Mohamad  
WHO Representative
